### Professional Summary

I am a passionate Business Intelligence Officer with a keen eye for transforming raw data into powerful insights that fuel strategic business decisions. With a background in data analytics, visualization, and process optimization, I specialize in making complex data digestible, actionable, and impactful.

My expertise spans across Power BI, Tableau, SQL, Python, Excel, and data modeling techniques, enabling me to craft insightful dashboards and reports that drive performance and efficiency. I thrive on turning numbers into narratives and ensuring businesses harness the full potential of their data.

---

### Skills & Tools

- **Power BI & Tableau** - Crafting dynamic dashboards for data visualization and storytelling.
- **SQL & Database Management** - Extracting, transforming, and analyzing structured data efficiently.
- **Excel & Google Sheets** - Advanced formulas, pivot tables, and financial modeling.
- **Data Modeling & KPI Tracking** - Structuring data for accurate trend analysis and business forecasting.
- **Predictive Analytics & Forecasting** - Leveraging Python for data-driven decision-making.

---
